Sheepdog handling are fun hospitality or teambuilding activities, which depending on ability of the individuals can be highly amusing. This in turn brings out both rivalry and comradery in participants. After tuition you will be equipped with a shepards crook and one of Meirion's faithful border collies that will work to your voice commands. Guests will then attempt to herd ducks around a course, through tunnels and gates down a slide and finally back in to a pen.

Team building at our location, or we can travel to your venue.
